CEMENT IN AUGUST 2025

This report provides monthly data on the shipments of cement to final customers and the production of clinker in the United States from January 2024 through August 2025. Data on the imports of cement and clinker for August 2025 also are provided.

Total shipments of portland and blended cement, including imports, in the United States and Puerto Rico in August 2025 were an estimated 9.55 million metric tons (Mt), a 4.3% decrease from shipments in August 2024 (tables 1A, 2A, and 2B). Shipments for the year through August totaled an estimated 66.6 Mt, a 3.4% decrease from those for the same period in 2024. Of total blended tonnage reported year-to-date in 2025, 40.8 Mt (95%) was estimated to be portland-limestone cement (Type IL); the leading destination for Type IL shipments by tonnage was Texas. The leading producing States for portland and blended cement in August 2025 were, in descending order, Texas, Missouri, California, Florida, and Michigan: these States accounted for 39.2% of cement produced (table 1A). The leading cement-consuming States (Texas, California, Florida, Ohio, and Illinois, in descending order) received 38.5% of shipments in August (tables 2A and 2B).

Masonry cement shipments totaled an estimated 188,000 metric tons in August 2025, a 2.4% decrease from those in August 2024 (tables 1B, 2C). Shipments for the year through August totaled an estimated 1.44 Mt, a decrease of 4.6% from those for the same period in 2024. The leading masonry-cement-consuming States in August 2025 were, in descending order, Florida, Texas, North Carolina, Tennessee, and California; these States received 54.8% of shipments in August (table 2C).

Clinker production, excluding Puerto Rico, totaled an estimated 6.37 Mt in August 2025, a 2.3% decrease from that in August 2024. Production for the year through August totaled an estimated 43.8 Mt, a 6.3% decrease from the same period in 2024. The leading clinker-producing States in August 2025 were, in descending order, Missouri, Texas, California, Florida, and Alabama (table 4).

Tables 5, 6, and 7 list import data from the U.S. Census Bureau; however, data for clinker imports into the Detroit, MI, and Seattle, WA, customs districts do not include material trucked in from Canada on an informal-entry basis. Monthly imports can show significant year-over-year changes for a variety of reasons and commonly do not correlate well with consumption levels in the respective import districts in the same month. August 2025 imports of cement and clinker, including the San Juan, PR, customs district, totaled 1.98 Mt, a 13.8% decrease compared with that in August 2024. Imports for the year through August totaled 16.9 Mt, a 3.0% decrease from those for the same period in 2024.

A worksheet has been added to the Excel table files that includes a button to remove text and numerical footnotes from data cells. This will allow users to only have numbers in data cells. Please see the worksheet titled RemoveTextButton for instructions on how to use the tool. Note: you must download the Excel file in order to use the tool.

[1]Does not include sales of imported cement likely destined to "Texas, southern" by companies that do not report to the USGS.
[2]Includes estimates for nonrespondents or facilities that provided incomplete information; data have been rounded to three significant digits.
[3]As reported by domestic and Canadian cement manufacturers and other importers. Includes U.S. possessions and territories.
[4]Data may not add to totals shown because of independent rounding.

Table 2a—Continued. Portland cement shipments, by destination, January 2024–August 2025.

[Data are unrounded but are thought to be accurate to no more than three significant digits. Includes imported cement and cement manufactured from imported clinker. Data are in metric tons. Estimated data are marked with superscript "e".]

[1]Does not include sales of imported cement likely destined to "Texas, southern" by companies that do not report to the USGS.

[2]Includes estimates for nonrespondents or facilities that provided incomplete information; data have been rounded to three significant digits.

[3]As reported by domestic and Canadian cement manufacturers and other importers. Includes U.S. possessions and territories.

[4]Data may not add to totals shown because of independent rounding.

Table 2a—Continued. Portland cement shipments, by destination, January 2024–August 2025.

[Data are unrounded but are thought to be accurate to no more than three significant digits. Includes imported cement and cement manufactured from imported clinker. Data are in metric tons. Estimated data are marked with superscript "e".]

[1]Does not include sales of imported cement likely destined to "Texas, southern" by companies that do not report to the USGS.

[2]Includes U.S. possessions and territories.

[3]Data may not add to totals shown because of independent rounding.

[4]Of total blended tonnage reported, sales of portland-limestone cement (Type IL) year-to-date.

Table 2b—Continued. Blended cement shipments, by destination, January 2024–August 2025.

[Data are unrounded but are thought to be accurate to no more than three significant digits. Includes imported cement and cement manufactured from imported clinker. Data are in metric tons. Blended cement defined per ASTM standard C595. Estimated data are marked with a superscript "e".]

[1]Does not include sales of imported cement likely destined to "Texas, southern" by companies that do not report to the USGS.

[2]Includes U.S. possessions and territories.

[3]Data may not add to totals shown because of independent rounding.

[4]Of total blended tonnage reported, sales of portland-limestone cement (Type IL) year-to-date.

Table 2c. Masonry cement shipments, by destination, January 2024–August 2025.
[Data are unrounded but are thought to be accurate to no more than three significant digits. Includes imported cement and cement manufactured from imported clinker. Data are in metric tons. Estimated data are marked with superscript "e".]
