

Copyright Dedication Agreement

In connection with submitting to the U.S. Geological Survey (USGS) the text, image(s), audios, videos, and/or audio-videos (the Work) listed below, I, the provider aver that they were either created in my capacity as a Federal Government employee and are therefore in the U.S. public domain or they were created by me alone in my private capacity and automatically qualify for a U.S. copyright. If a U.S. copyright presently applies to any of the items listed, I agree to irrevocably dedicate that or those copyrights to the public domain.

I am the sole copyright owner of the Work. I understand that if I do not solely own copyright of the Work, that I have obtained written permission from all co-owners of the Work. I hereby warrant and represent that I have the full right, power, and authority to irrevocably dedicate the copyright to the public domain and that use of the Work will not violate any rights of any kind or nature whatsoever of any third party.

As a result, the USGS, or anyone else, may freely publish, reproduce, use and/or distribute the Work in any media, now in existence or created in the future, at no cost and without temporal or geographic restriction. If the USGS uses any of the Work in its products or services, it agrees to credit the provider when and where possible.

List the specific content being submitted:

I, the provider, understand that if the above representations concerning copyright ownership are determined to be incorrect or false, resulting in the USGS or the U.S. Government being sued for copyright infringement, I agree to indemnify the USGS and/or the U.S. Government for any resulting out-of-pocket expenses arising from defending and/or settling such litigation.
