

# Mendenhall Research Fellowship Program: Postdoctoral Research Opportunities Available!

## Apply Now!

### ABOUT:

The Mendenhall Research Fellowship Program provides an opportunity for postdoctoral fellows to conduct research in association with USGS scientists. Mendenhall Fellows work in USGS offices across the United States.

### QUALIFICATIONS:

- Received PhD no earlier than 5 years from the application opening date
- Meet qualification requirements specified in the Research Opportunity description
- Be a U.S. citizen; in rare cases, a person who owes allegiance to the U.S. or a person who is lawfully admitted for permanent residence and is seeking U.S. citizenship may be considered

### HOW TO APPLY:

- Visit [www.usgs.gov/mendenhall](http://www.usgs.gov/mendenhall)
- Work with a Research Advisor to draft your research proposal
- Submit all application materials

### CONTACTS:

#### Mendenhall Program and Science:

Dr. Cara Campbell, 703-648-6459,  
[ccampbell@usgs.gov](mailto:ccampbell@usgs.gov)

#### Human Resources:

Audrey Tsujita, 916-278-9395,  
[atsujita@usgs.gov](mailto:atsujita@usgs.gov)

USGS Research Oceanographer Li Erikson seen here collecting data along the Pacific coast during her Mendenhall Fellowship. Her research is focused on coastal storm modeling, storm-induced coastal flooding, erosion, and cliff failures over large geographic scales. Photo credit: Patrick Barnard, USGS

USGS Research Geologist Lydia Staisch stands beneath a caliche ledge in the upper part of the Ringold formation stratigraphy in Washington state during fieldwork conducted during her Mendenhall Fellowship. Her research is focused on structural geology, tectonic geomorphology, geologic mapping, and seismic hazards. The work done as part of her Mendenhall Fellowship was published in the Geological Society of America's Bulletin series, 2017. Photo credit: Harvey Kelsey, Humboldt State University.
