Peer Reviewers Information

[Names and biographies of peer reviewers](#) [33 KB PDF] for Synthesis and Assessment Product 4.2

Charge Submitted to Peer Reviewers

[Charge letter](#) [21 KB PDF] (instructions) submitted to Peer Reviewers.

Draft Document for Peer Review

[Draft SAP 4.2: Thresholds of Climate Change in Ecosystems](#) [1.3 MB PDF]

Peer Review Comments and Author's Responses

Eight peer reviewers met and provided comments for restructuring and refocusing the draft document. All reviewers provided comments on the whole document. All authors were given the responsibility to respond to the comments provided for their sections and the introductory and summary information.

Reviewer comments were tabulated into a master table and provided to all authors. Comments identified a chapter, section, line, and page number where appropriate. Peer review comments and responses are in the table below.
