CEMENT IN MAY 2019

This report provides monthly data on the shipments of cement to final customers and the production of clinker in the United States from January 2018 through May 2019.¹ Data on the imports of cement and clinker for May 2019 also are provided.

Total shipments of portland and blended cement, including imports, in the United States and Puerto Rico in May 2019 were 9.3 million metric tons (Mt), a slight decrease from shipments in May 2018 (tables 2A and 2B). Shipments for the year through May totaled 37.4 Mt, an increase of 2.5% from those for the same period in 2018. The leading producing States for portland and blended cement in May 2019 were, in descending order, Texas, California, Missouri, Florida, and Alabama (table 1A). The leading cement-consuming States (Texas, California, Florida, Ohio, and Georgia) received 39% of May shipments (tables 2A and 2B).

Masonry cement shipments totaled 222,000 metric tons (t) in May 2019, essentially unchanged from those in May 2018 (table 2C). Shipments for the year through May totaled 993,000 t, a slight increase from those for the same period in 2018. The leading masonry-cement-consuming States in May 2019 were, in descending order, Florida, Texas, North Carolina, California, and Georgia; these States received 55% of May shipments (table 2C).

Clinker production, excluding Puerto Rico, totaled 7.2 Mt in May 2019, essentially unchanged from the output in May 2018

(table 4). Production for the year through May totaled 29.0 Mt, essentially unchanged from the output for the same period in 2018. The leading clinker-producing States in May 2019 were, in descending order, Texas, California, Missouri, Florida, and Alabama.

Tables 5, 6, and 7 list import data from the U.S. Census Bureau; however, data for clinker imports into the Seattle, WA, and the Detroit, MI, customs districts do not include material trucked in from Canada on an informal entry basis. Likewise, imports of cement into the El Paso, TX, district may be missing significant informal entries from Mexico. Monthly imports can show significant year-over-year changes for a variety of reasons and commonly do not correlate well with consumption levels in the respective import districts in the same month. May 2019 imports of cement and clinker totaled 1.6 Mt, a decrease of 6.2% from imports in May 2018. Imports for the year through May totaled 6.1 Mt, an increase of 12% from those for the same period in 2018.

List services and web feed subscribers are the first to receive notification of USGS minerals information publications and data releases. For more information on how to subscribe, go to <https://www.usgs.gov/centers/nmic/minerals-information-publication-list-services>.

¹Footnoted revisions to the historical data are those received since the publication of the previous month's edition of this report.

[†]Revised.

¹Data are unrounded but are thought to be accurate to no more than three significant digits.

²Includes imported cement and cement manufactured from imported clinker.

³As reported by domestic and Canadian cement manufacturers and other importers.

⁴Data may not add to totals shown because of independent rounding.

^rRevised. -- Zero.

¹Data are unrounded but are thought to be accurate to no more than three significant digits.

²Includes imported cement and cement manufactured from imported clinker.

³Blended cement defined per ASTM standard C595.

⁴Includes U.S. possessions and territories.

⁵Data may not add to totals shown because of independent rounding.

-- Zero.

¹Includes white cement and clinker.

²Value = c.i.f. (cost, insurance, and freight).

³Data for the Detroit and Seattle districts for imports from Canada are thought to be underrepresented with respect to clinker.

⁴Data for the El Paso district for imports from Mexico are believed to be underrepresented with respect to cement.
