## CEMENT IN MAY 2021

This report provides monthly data on the shipments of cement to final customers and the production of clinker in the United States from January 2020 through May 2021. Data on the imports of cement and clinker for May 2021 also are provided.

Total shipments of portland and blended cement, including imports, in the United States and Puerto Rico in May 2021 were an estimated 9.2 million metric tons (Mt), a 5.6% increase from shipments in May 2020 (tables 2A and 2B). Shipments for the year through May totaled an estimated 40.3 Mt, a 6.5% increase from those for the same period in 2020. The leading producing States for portland and blended cement in May 2021 were, in descending order, Missouri, California, Texas, Florida, and Michigan (table 1A); these States accounted for 39% of cement produced. The leading cement-consuming States (Texas, California, Florida, Ohio, and Georgia) received 37% of May shipments (tables 2A and 2B).

Masonry cement shipments totaled an estimated 201,000 metric tons (t) in May 2021, a 3.4% increase from those in May 2020 (table 2C). Shipments for the year through May totaled an estimated 969,000 t, a 2.6% increase from those for the same period in 2020. The leading masonry-cement-consuming States in May 2021 were, in descending order, Florida, Texas, California, North Carolina, and Georgia; these States received 54% of May shipments (table 2C).

Clinker production, excluding Puerto Rico, totaled an estimated 7.3 Mt in May 2021, an 8.0% increase from production in May 2020 (table 4). Production for the year

through May totaled an estimated 29.7 Mt, a slight decrease from the same period in 2020. The leading clinker-producing States in May 2021 were, in descending order, Missouri, Texas, California, Florida, and Pennsylvania; these states accounted for 49% of May clinker production (table 4).

Tables 5, 6, and 7 list import data from the U.S. Census Bureau; however, data for clinker imports into the Seattle, WA, and the Detroit, MI, customs districts do not include material trucked in from Canada on an informal-entry basis. Likewise, reported imports of cement into the El Paso, TX, district may be missing significant informal entries from Mexico. Monthly imports can show significant year-over-year changes for a variety of reasons and commonly do not correlate well with consumption levels in the respective import districts in the same month. May 2021 imports of cement and clinker totaled 2.2 Mt, an 86% increase from imports in May 2020. Imports for the year through May totaled 8.6 Mt, an increase of 40% from those for the same period in 2020.
