

Agenda for the 2012 Northern California Earthquake Hazards Workshop, US
Geological Survey, January 24-25, 2012,

Tuesday, January 24

8:45 AM Opening Remarks, Bill Leith, US Geological Survey

9:00 AM Constraining the Kinematic Block Model for the Bay Area
Keynote Speaker- Kaj Johnson, University of Indiana
Moderator- Roland Burgmann, UC Berkeley

10:30 AM Break

10:45 AM The Seismic Hazard to the Diablo Canyon Nuclear Power Plant
Keynote Speakers- Jeanne Hardebeck, US Geological Survey
Norm Abrahamson, Pacific Gas & Electric
Moderator- TBA

12:15 PM Lunch

1:15 PM Interpreting the Recent Swarm of Small Earthquakes in Berkeley
Speakers- Felix Waldhauser, Lamont Doherty Earth Observatory,
Gareth Funning, UC Riverside
Moderator- Jack Boatwright, US Geological Survey

2:00 PM Improving the 3D Geology and Velocity Models for Northern California
Keynote Speaker- Brad Aagaard, US Geological Survey
Moderator- TBA

3:15 PM Break

3:30 PM Paleoseismic Trenching in the Bay Area
Speakers- Ashley Streig, U of Oregon
Gordon Seitz, California Geological Survey
Judy Zachariasen, URS
Pat Williams, San Diego State University
Jim Lienkaemper, US Geological Survey
Moderator- David Schwartz, US Geological Survey

Wednesday, January 25

9:30 AM Panel Discussion- Implementing and Exporting SPUR's Resilient City Initiative

Panelists- Chris Poland, Degenkolb Associates

Mary Comerio, UC Berkeley

Lawrence Kornfeld, City of San Francisco

Laurie Johnson, Laurie Johnson Consulting

David Bonowitz, David Bonowitz SE

Mary Lou Zoback, CAPSS Project Co-Chair

Laura Dwelley-Samant, SPUR

Moderator- Sarah Karlinsky, SPUR

12:00 PM Lunch

1:15 PM General Discussion of Research Priorities for Northern California

1:45 PM Breakout Sessions for Research Priorities

3:30 PM Presentations from the Breakout Sessions, Meeting Wrap-up
