

EROS Registration System (ERS) Password Expiration Notices and Behaviors

Summary

The ERS system requires a login with a username and password. The password may have an expiration date assigned. The following document will explain the process and how a user can reset their expiration date.

Notices & Behaviors

- ERS registration site: <https://ers.cr.usgs.gov/register>
- By default, when a user signs up for an ERS account, the expiration date is not set.
- If a user is assigned an expiration date to their account, an email will be sent to indicate the date that was assigned.

X Close USGS/EROS Registration Service - Account 'embrock' password will expire on 2024-03-07

USGS / EROS Customer Services <custserv@usgs.gov>
To: [REDACTED]

Dear ERS User [REDACTED],

Your password for [REDACTED] will expire on: 2024-03-07.

You can change your password before 2024-03-07 using the following link: [Reset Your Password](#) and the expiration period will reset.

Best Regards,

Customer Service
U.S. Geological Survey
Center for Earth Resources Observation and Science (EROS)
47914 252nd Street
Sioux Falls, SD 57198-0001

- If a user has an expiration date set to their account, under the user's **Profile** tab, the User Information section will provide the expiration date.

User Information

Username: [REDACTED]

Password Expires On: 2024-03-07

- An email will be sent to a user whose expiration date is going to expire in 30 days.
- If a user has an expiration date, and the user resets their password, the default expiration date will be set to one year from the date of the password reset.
 - A new email will be sent to the user indicating the new expiration date.
