## ALUMINUM IN JULY 2023

Domestic primary aluminum production in July 2023 was 64,000 metric tons ( t ). The average daily production in July 2023 was $2,060 \mathrm{t}$, essentially unchanged from that in June 2023, unchanged from that in July 2022, and 15\% less than that in July 2021 (fig. 1, table 1).

Total aluminum recovered from scrap in July 2023 was $274,000 \mathrm{t}$, $3 \%$ less than that in June 2023, and slightly less than that in both July 2022 and 2021. Of this, 143,000 t of aluminum was recovered from new scrap, and 131,000 t was recovered from old scrap (fig. 1, table 1).

Figure 1. Monthly domestic primary and secondary aluminum production from July 2021 through July 2023.

## Prices and Stocks

The July 2023 average U.S. spot market price of primary aluminum ingot was $\$ 1.21$ per pound, slightly less than that in June 2023, 12\% less than that in July 2022, and 16\% less than that in July 2021. The average cash price in July 2023 of primary aluminum ingot on the London Metal Exchange (LME) was $\$ 0.98$ per pound, essentially unchanged from that in June 2023, 10\% less than that in July 2022, and 14\% less than that in July 2021 (fig. 2, table 6).

Inventories of primary aluminum in LME-approved warehouses, including off-warrant inventories, in the United States were 3,224 t at the end of July 2023, unchanged from that at the end of June 2023. Inventories of secondary
aluminum (North American Secondary Aluminum Alloy Contract) in LME-approved warehouses, including off-warrant inventories, in the United States were 660 t at the end of July 2023, 27\% less than that at the end of June 2023 (London Metal Exchange Ltd., 2023a-d).

## Updates

On August 31, Exlabesa SA (Spain) announced that it completed the acquisition of Flandria Aluminium (France), a manufacturer and recycler of aluminum profiles, for an undisclosed amount. Flandria's facilities include two extrusion presses and an aluminum recycling plant. Exlabesa, a multinational aluminum profile manufacturer, produces 160,000 t of extruded profiles annually (Exlabesa SA, 2023).

On September 11, Novelis Inc., announced a new contract to provide aluminum sheet to Ball Corp., a manufacturer of aluminum cans. Novelis will produce the sheet product at its plant in Bay Minette, AL, which is in development and expected to begin production in 2025. The facility has a planned initial capacity of 600,000 metric tons per year of finished products. With this agreement, Novelis has contracted the Bay Minette plant's entire beverage can capacity. The company did not specify the volume or term of the agreement (Novelis, Inc., 2023).
