## SILVER IN JULY 2023

U.S. mines produced 84,300 kilograms (kg) of silver in July 2023 (table 1). Based on unrounded data, the average daily silver production in July was $2,720 \mathrm{~kg}$, down $5 \%$ from the revised average daily silver production in June 2023, and a slight decrease from the revised average daily silver production of $2,760 \mathrm{~kg}$ for the full year 2022 (fig. 1, table 1).

Figure 1. Monthly domestic production of silver in the United States from July 2021 through July 2023.

## Prices

In July 2023, the Engelhard average daily silver price was $\$ 24.27$ per troy ounce, a 3\% increase from the June 2023 average daily price of $\$ 23.52$ per troy ounce, a $27 \%$ increase from that in July 2022, and a 6\% decrease from that in July 2021. The daily price in July ranged between a high of $\$ 25.35$ per troy ounce and low of $\$ 22.80$ per troy ounce (fig. 2 , table 2 ).

## Trade

In July 2023, imports of silver in the form of bullion, dore, and ores and concentrates totaled $364,000 \mathrm{~kg}$, a $6 \%$ decrease from that in June 2023. This decrease from the previous
month was owing to a $38 \%$ decrease in imports of silver dore. Imports of silver bullion were essentially unchanged for the month but increased from Canada ( $30,900 \mathrm{~kg}$ ), Republic of Korea ( $27,800 \mathrm{~kg}$ ), Belgium ( $18,500 \mathrm{~kg}$ ), Chile $(5,760 \mathrm{~kg})$, and Switzerland $(4,000 \mathrm{~kg})$, but were partially offset by decreased imports of silver bullion from Mexico (37,200 kg), Poland $(13,800 \mathrm{~kg})$, Kazakhstan (10,800 kg) and Turkey (4,760 kg). The decrease in imports of dore were attributed to Mexico $(23,500 \mathrm{~kg})$ and Argentina ( $2,890 \mathrm{~kg}$ ). The leading import sources of silver in July 2023 in the form of bullion, dore, and ores and concentrates were: Mexico $(173,000 \mathrm{~kg})$, Canada ( $89,000 \mathrm{~kg}$ ), Republic of Korea $(29,800 \mathrm{~kg})$, Turkey $(26,100$ kg ), Belgium (18,500 kg) and Chile (11,400 kg) (table 3).
