MARKETABLE PHOSPHATE ROCK APRIL 2025

U.S. marketable phosphate rock production in April was estimated to be 1.71 million metric tons (Mt), 6% higher than that in March and 7% higher than that in April 2024 (table 1). Total production in January through April was estimated to be 6.56 Mt, 4% higher than the revised amount in the same period of 2024.

Phosphate rock sold or used in the United States in April was estimated to be 1.55 Mt, 11% lower than that in March and slightly lower than that in April 2024. Total sold or used in January through April was estimated to be 6.81 Mt, 7% higher than the revised amount in same period of 2024. U.S. producer stocks were estimated to be 10.3 Mt, 10% higher than those in March and 8% higher than those in April 2024 (table 1).

Imports of phosphate rock in April were 271,000 metric tons, unchanged from March and 17% higher than those in April 2024 (table 2). Total imports in January through April were 1.13 Mt, which were 3% lower than those in the same period of 2024. Imports of phosphate rock can vary substantially from month to month based on sales contracts and production schedules of the phosphate plants.

Estimated apparent consumption for 2025, based on annualized sold or used and import data, was 24.2 Mt, compared with 22.4 Mt in 2024 (table 3).

A worksheet has been added to the excel table files that includes a macro to remove text from data cells. This will allow users to only have numbers in data cells. Please see the worksheet titled `RemoveTextButton` for instructions in how to use the tool. Note: you must download the excel file in order to use the tool.

List services and web feed subscribers are the first to receive notification of USGS minerals information publications and data releases. For information on how to subscribe, go to <https://www.usgs.gov/centers/national-minerals-information-center/minerals-information-publication-list-services>.

Table 1. U.S. phosphate rock statistics.

[Data are rounded to no more than three significant digits; may not add to totals shown. Data are in thousand metric tons. Estimated data and revised data are marked with superscripts "e" and "r", respectively.]

Period	Marketable production	Sold or used	Stocks, end of period ¹
2024^e			
January–April	6,340 ^r	6,360 ^r	9,520 ^r
April	1,600	1,580	9,520
May	1,560	1,590	9,500
June	1,770	1,600	9,670
July	1,650	1,560	9,760
